# MALTED CAKE WITH DECORATED EGGS By Kimberli Washington, Public Information Office

# Ingredients:

#### Cake

- 1 box white cake mix
- 3 eggs
- 1 teaspoon pure vanilla extract
- ½ cup malted milk powder
- 1 ¼ cups water
- 1/3 cup vegetable oil
- Non-stick cooking spray (for baking)
- 3 (8-inch) round cake pans

#### **Frosting**

- 2 cups softened butter
- 6 cups powdered sugar
- 1 teaspoon pure vanilla extract
- 1 cup malted milk powder
- 4 teaspoons evaporated milk
- Speckled, candy-coated malted milk egg candies (garnish)
- Shredded, unsweetened coconut with green food coloring (garnish)

### **Directions:**

## Cake

 Pre-heat oven to 350 degrees. Spray non-stick cooking spray on three 8inch round cake pans; set aside.

- In a large bowl, stir together cake mix and malted milk powder, using a whisk. Add remaining cake ingredients and beat with an electric mixer on low speed until well combined. Divide batter evenly into cake pans.
- Bake about 25-28 minutes or until a toothpick comes out the center of the cake smoothly. Cool completely on a cooling rack for about 30 minutes.

## Frosting

- In a large bowl, beat softened butter on medium speed with an electric mixer until creamy. Reduce to low speed and gradually beat in powdered sugar and malted milk powder.
- Add evaporated milk and pure vanilla extract. Beat for about 2 minutes or until smooth. (Add in additional powdered sugar and milk to make more spreadable).
- Place shredded coconut in a bowl with a lid. Squirt a few drops of food coloring inside and shake until evenly coated.
- Place one layer of cake, top side down on a serving plate. Spread frosting on top and sides, and top with another cake layer. Repeat the process until all three layers are added and frosted.
- Top with colored coconut for grass effect, and add candy eggs on top.
- Serve and enjoy!!!
